# M-430F

MOBILE VACUUM SEALER FOR THE FOOD INDUSTRY

AMAC M-430F is one of the largest single chamber mobile (floor type) models in our series for food industries, meat and chicken processors, fish and shell fish wholesalers, Cheese, Vegetables, Frozen Food packagers, Supermarket chains and Warehouse Sales; for Restaurants, Catering Services, Chefs' Kitchen, packing for Sous Vide.

## Available Options

### Gas injection

After vacuum packing and before the bag is sealed, there is an option to add gas. This is often used to extend the shelf life, as extra protection for fragile products and to prevent discolouring of specific products.

### Sensor control

Instead of the number of seconds, the required end vacuum is set in percentage (0 to 99%) with this sensor. The vacuum pump extracts air until the exact pre-set end vacuum has been reached. Regardless of the volume the pre-set end vacuum will always be reached.

### Trim off Seal

Easily tear off the residual plastic bag with a trim off seal.

### Top and Bottom Seal

Seal bars on both the inside of the lid and on the vacuum chamber

### 1-2 Trim off Seal

Consists of one 3.5 mm convex seal wire and one 1.1 mm round wire.

### Cushion Protection Control

Precision Control System with 20 programs

**[AMAC's machines are] fast and robust vacuum packing machines with a world-wide reputation.**

### Accessories

- Filler plates
- Service kit

### Additional Features

- Flexible for various-size product
- Made of stainless steel
- Optimal hygiene and low particle counts
- Robust mobile chamber machine
- Filler plates for faster cycle & adjusting seal height

**All features available in the series**

OPTION 1

OPTION 2

OPTION 3

01

### FOOD SAFETY

Hermetically sealing the bag prevents cross-contamination of your products from external influences and improves food safety. Prevents dehydration, freezer burn and mold.

02

### SOUS-VIDE COOKING

By using vacuum packaging machine, you ensure that your food product is packed correctly, so you can safely start and prepare food and meals sous-vide.
