

THERMOFORMING MACHINE MODEL: TFM-420

Features

- ❖ Stainless steel construction
- ❖ High efficiency European Vacuum Pump
- ❖ Touch screen with choice of multi-language
- ❖ Forming depth is adjustable.
- ❖ For clear and printed film
- ❖ Fast, simple, easy change-over for die sets
- ❖ Conform to CE regulations
- ❖ Cycle speed is adjustable by touch panel

Applications

- ❖ Fresh meat, seafood, pickles, vegetables, agricultural products, herbs, bean paste, prepared foods, electronics parts, medical instruments and medicine.. etc.

Packaging: The design can be based on the product dimensions.

Machine Dimension	Width of Forming Film	Width of Sealing Film	Packaging	Max. Forming Depth	Air Supply	Water Consumption
3700x950x2000mm	424mm	404mm	296x396mm	60mm	5 – 7 bar	50 – 80 L/H
Options	◇ Special design is available for various products ◇ Date injecting ◇ Date Thermal Printing ◇ Labeling ◇ Water Cooling Machine.					Power Three Phase-220V-60Hz
	◇ Cross cutting applicer to different pattern
